

LOOK UP TO THE DC-8!

The DC-8, now in flight, will soon carry you to new heights of luxurious air travel.

DC-8 introduces you to Her Serene Highness—the Stratosphere

Beneath the outstretched wings of the DC-8, the world falls swiftly below. The sky you climb into turns from blue to purple, and as you reach new heights, there comes over you a sense of serenity you've never known before.

Cradled in your pressurized cabin in the Douglas Jetliner eight miles high, with the sun and moon your neighbors, you gaze down on the toylike towns and peaks and waters of the world. Tranquilly suspend-

ed in the clear quiet of the stratosphere, you experience no sense of speed, no vibration, no engine's roar . . . nothing but a beautiful peace of mind and body.

But the DC-8 offers you more than speed and serenity. It brings you a family history of experience, dependability and comfort unmatched in the annals of flight. It is this — *and more*—which makes passengers and pilots look up to Douglas. You'll sense it all when you take your first flight in the fabulous . . .
